

# Test notes

Test case	Expected result	Actual result	Actions
Admin login (Username: Haywood.Luby )	Administrator have all possible permissions, admin panel should be the same as for super user	As expected	
Manager login (Username: Halina.Dabbs )	Manager should see and modify all the tours and agents information	Manager can see and change the tours ONLY	Added permission to see a list of agents
Manager login (Username: Halina.Dabbs )	Manager should see and modify all the tours and agents information	As expected	
Agent login (Username:Marty.Schaeffer )	Agent should be able to see and change information of their own tours (this user has 4 tours)	Have no permissions at all	Added permission to see the tours
Agent login (Username:Marty.Schaeffer )	Agent should be able to see and change information of their own tours (this user has 4 tours)	Can see all the tours, but cannot change any of tours	Changed approach, now agents can change they tours and add new tours from the website (without access to the admin panel)
Agent login (Username:Marty.Schaeffer )	Agent can see and change his tours, and add new one	As expected	

	from the website
